the feminine laser

No more taboo!

ABOUT INTIMATE DISCOMFORT:

Different ages of a woman's life are accompanied by different experiences with regard to her intimacy and her sexuality. Childbirth (especially natural) and menopause are just two examples of events that cause a change in the intimate area and vaginal environment, each of them accompanied by different disorders. Annoying symptoms such as dryness, pain during sexual intercourse and unwanted urine loss occur much more often than you may think, with millions of women suffering from it.

A life changing procedure

... FOR WOMEN OF ALL AGES

The Juliet laser treatment has already changed the lives of thousands of women worldwide. Intimate well-being should not be a taboo anymore.

- + without anesthesia, downtime or side effects
- + immediate results

How Juliet works

FREQUENTLY ASKED QUESTIONS

HOW DOES THE JULIET TREATMENT WORK?

The Juliet Laser treatment uses light to gently release energy into the tissue. The procedure is very similar to your annual check-up. Your doctor will insert the laser tip, which will deliver the laser energy in the form of pulses. The entire treatment takes only a few minutes and is fast, painless and discreet.

WHEN CAN I EXPECT THE RESULTS?

The attenuation of the symptoms can be observed immediately after the first treatment.

IS THE TREATMENT PAINFUL?

No, the treatment is not painful and can be done without anesthesia.

HOW MANY SESSIONS ARE NECESSARY?

Two treatments 4 to 6 weeks apart are recommended.

IS THE JULIET TREATMENT RIGHT FOR ME?

Juliet is the right treatment for all women who experience annoying symptoms and who are looking for a fast, minimally invasive and discrete therapy.
